

## Authenticating your router through DHCPatriot

When you first connect a router or switch to Glenwood for the first time, you will need to authenticate that you are one of our users before you can fully use the internet. This lets our server know that you have a Glenwood username and password and gives us the device's MAC Address. Instructions for authenticating are below.

In order to authenticate your router, visit [gtmc.net](http://gtmc.net) and your screen should look like the one below. If it does not come up, type in this link <http://74.51.143.4/index.php?l=1&p=60&u=0&rt=tpu>. Once you have authenticated successfully, your screen should look like the one at the bottom of the page. If you have any questions, contact the office at 402-756-3131 or 1-866-756-4746.

### Glenwood Telephone Broadband

Username:	<input type="text" value="Username"/>	<b>Current Device Information</b>
Password:	<input type="text" value="Password"/>	
<input type="button" value="Connect"/>		<b>MAC Address:</b> 00:00:00:00:00:00 <b>IP Address:</b> 74.51.143.26

### Attention Please Read

Please enter your Glenwood username and password in the above form. The username is the beginning of your Glenwood email address (**example@gtmc.net**). **Do not** include the @gtmc.net. The password is the same one you would use to check your email.

After you enter the correct credentials and click the "Connect" button you will be given instructions on how to complete this authentication procedure.

If you need further assistance call our office at [1-866-756-4746](tel:1-866-756-4746).

### Attention Please Read

You have successfully authenticated with Glenwood.

Before your internet will work you need to reboot or shut off and turn back on your equipment. This includes wireless routers (i.e. Linksys, Cisco, Dlink, Netgear, Belkin) and/or your computer. Also reboot any equipment Glenwood provided you which includes modems, radios, and power injectors.

After you have rebooted your equipment you will be able to surf web pages and receive email normally.

If you need further assistance call our office at [1-866-756-4746](tel:1-866-756-4746).
